### W.P. COWPERTHWAIT PLEADS GUILTY AND OBTAINS FREEDOM.

James V. Taylor's Sentence Is Staved and He Will Soon Be Married.

James V. Taylor, charged with impersonating a United States Secret Service Agent, entered a plea of guilty to the charge before Judge Rogers yesterday and the Judge stayed the sentence perpetually. Taylor was released from jall on bond furnished by Mrs. Henry Kent of No. 2110 South Ninth street, August 29. Mrs. Kent intervened in Taylor's behalf because of the engagement of the prisoner to her daughter, Miss Belle Kent. Taylor has since been at the Kent home. The marriage is expected

to take place within a few weeks.

Taylor was tried on the charge at the last term of court, but the jury disagreed. He was sent back to jail and became afflicted with rheumatism. Then United States District Attorney Rozier accepted Mrs. Kent as bondsman for Taylor. The proceedings necessary to the giving of bond brought about a controversy between United States Commissioner James R. Gray and United States Marshal Boble, in which there was talk of proceeding acceptable there was talk of proceeding against the

Marshal.

Mrs. Kent having no property, Bohle question of the Commissioner's right to take her as surety on Taylor's bond. The Commissioner informed the Marshal that it was none of his business whether the bond was good or not. Bohle replied that Gray had no right to release a prisoner on bond who had been inducted, saying that Judge Adams had so ruled. District Attorney Rozier looked up the law, and the result was that Taylor was released and Mrs. Kent signed the bond.

### MOUNTAIN DISAPPEARED.

Phenomenal Effect of Earthquake Shock in Japan.

Vancouver, British Columbia, Sept. 9.-The teamer Tartar has arrived bringing news that a mountain in Northern Japan disappeared after an earthquake last week. It

peared after an earthquake last week. It stood in the center of a plain in Igusa district, rose 500 feet in height, and covered forty acres at the outskirts of the village of Kolwayama.

On August 16 a tremendous thundering noise was heard in the direction of this hill, and when the villagers assembled on the spot, attracted by the mysterious sounds, they found that the mountain had disappeared. Instead of the hill they saw level ground, grown over with wild grass and shrubs. The strange discovery threw the villagers into great consternation.

A closer examination showed that the mountain had been bodily sunk into the ground, leaving its top on a level with the surrounding land. It is thought that the phenomenon was the result of subterranean volcanic action.

REPUBLIC SPECIAL. Washington, Sept. 9.-Filibustering expeditions continue to attack Colombia. Min ister Silva, the diplomatic representative of that Government in Washington, received this dispatch this evening from a confidential source in Jamaica:

A considerable expedition has landed at Bocas del Toro- Another expedition is about to start from Corinto, Nicaragua which is expected to land at Panama."

A dispatch received by the legation last

Government is able to cope with the situation.

"There are no insurgents of importance in Colombia," Doctor Silva continued. "Our frontiers are well guarded, and I see no reason to be concerned over the situation. Colombia has accepted the mediation of the United States and is hopeful that as a result of American influence peace will be preserved." It is expected that the next step to be taken by the United States in the Colombian affair will be considered at the first Cabinst meeting. Colombia has expressed her willingness to have the United States Government use its good offices, but Venesuela has declined. It will now be necessary to make representations to President Castro's Government to induce it to permit a peaceful settlement of its dispute with the Pogota authorities.

The report gained circulation | that the Wabash track, which runs west of Hodiamont, is to be the dividing line. This is not satisfactory to the residents of the dictrict west of the Wabash. They claim that the ine should be further east.. Some maintain that the new parish should extend east to the city limits, thereby taking in a part of Hodiamont and a considerable tract to the north which is thickly settled. Others advocate the establishment of the line at Hodiamont avenue, which would take in still more of St. Rose's parish. At a recent meeting the matter was

strongly debated, resulting in a compromise. It was decided to request Archbishop Kain o make the St. Louis and Suburban road the dividing line. This would be almost the same as having the eastern boundary of the new parish extend to the city limits.

A committee was apported at the meeting to call on the Archbishop and lay the matter before him. It was decided to wait, however, until Father J. J. McGlynn, pastor of St. Rose's Church, returns from a trip to California.
